Project: State Targeted Response to the Opioid Crisis Grant Program Reports - NEW

The Substance Abuse and Mental Health Services Administration (SAMHSA) is authorized under Section 1003 of the 21st Century Cures Act, as amended, to support a grant program, for up to 2 years, that addresses the supplemental activities pertaining to opioids currently undertaken by the state agency or territory and will support a comprehensive response to the opioid epidemic. The State Targeted Response to the Opioid Crisis Grant (Opioid STR) program addresses Healthy People 2020, Substance Abuse Topic Area HP 2020-SA. The primary purpose of Opioid STR is to address the opioid crisis by increasing access to treatment, reducing unmet treatment need, and reducing opioid overdose related deaths through the provision of prevention, treatment and recovery activities for opioid use disorder (OUD) (including prescription opioids

as well as illicit drugs such as heroin).

There are 57 (states and jurisdictions) award recipients in this program. All funded states and jurisdictions will be asked to report on their implementation and performance through an online data collection system. Award recipients will report performance on the following measures specific to this program: number of people who receive OUD treatment, number of people who receive OUD recovery services, number of providers implementing medication-assisted treatment, and the number of OUD prevention and treatment providers trained, to include NPs, PAs, as well as physicians, nurses, counselors, social workers, case managers, etc. This information will be collected at the mid-point and conclusion of each grant award year. Additionally, each award recipient will describe the purposes for which the grant funds received were expended and the activities under the program, and the ultimate recipients of amounts provided to the grantee in the grants.
